PRESS RELEASE

Temp Sensor for EZ-Peak Plus

Expand the capabilities and versatility of the Traxxas EZ-Peak Plus charger with this easy-to-install temperature sensor—just plug it into the charger, then wrap the sensor around the battery using the supplied heavy-duty hook-and-loop strap. The sensor's sensitive thermistor and the EZ-Peak Plus' display show the battery's temperature as you charge in any mode. Set the EZ-Peak Plus for Temperature Cutoff, and the charger will automatically stop charging when the battery reaches the temperature you set. Charge by temperature or use the sensor as a safeguard against over-charging. The Temperature Sensor is compatible with NiMH and LiPo batteries.

The Traxxas Temperature Sensor plugs directly into the EZ-Peak Plus Charger for quick installation.

Compatible with all Traxxas Power Cell Batteries

EZ-Peak Plus Temperature Sensor features:

- Easy plug-in installation
- Compatibility with NiMH and LiPo batteries
- Heavy-duty hook-and-loop strap to secure the sensor
- Highly sensitive thermistor for accurate temperature readings
